Chapter 1

Introduction

Chapter 2

Background

In figure 2.1 editing the font in LaTeX as seen with `\fontsize{9pt}{11pt}\selectfont` command can help with formatting problems. A useful tutorial can be found at <https://youtu.be/MK3cWRA5eLQ> except export to .pdf and .pdf_tex.

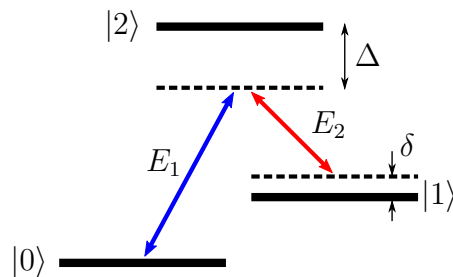

Figure 2.1: This image was generated in inkscape and text rendered in LaTeX. This is done by saving as a pdf and having a separate file of Tex (for the text) generated. This can often ruin the font/text formatting relative to the image.
